Track recording

GPX Viewer PRO

Here you can find step by step instructions om how to record a track with GPX Viewer PRO:

- 1. Open main **left menu**.
- 2. Tap Track Recording button.
- 3. When **red recording icon** appears on the right side of the screen tap it.
- 4. Select a profile that fits your transportation means.
- 5. After starting the recording you have 3 different symbols to use.
 - 1. Stop the recording.
 - 2. Pause the recording.

00 02

01 0 M

- 3. Add waypoint from your current location.
- 6. After stopping recording, you can **adjust track details** such as name. description, links, location and file type.

Below is video showing following instructions above:
