Track recording

Here you can find step-by-step instructions on how to record a track with GPX Viewer PRO:

- 1. Open main left menu.
- 2. Tap Track Recording button.
- 3. When **red recording icon** appears on the right side of the screen tap it.
- 4. **Select a profile** that fits your transportation means.
- 5. After starting the recording you have 3 different symbols to use.
 - 1. Stop the recording.
 - 2. Pause the recording.
 - 3. Add a waypoint from your current location.
- 6. After stopping recording, you can **adjust track details** such as name. description, links, location, and file type.

Below is a video showing the following instructions:
