GPS

**How to get to GPS:** Open Left Main Menu → Settings → GPS

GPS settings are the main settings for general GPS settings and location notification settings.

- **Rotate map according to GPS** - turn on/off map rotation according to data from GPS instead of the device orientation sensor.
- **Move to lower part of the screen** - turn on/off moving the current location to the lower part of the screen when following GPS.
- **Elevation from air pressure** - turn on/off elevation measurements based on pressure sensors.
- **Show off-track warning** - turn on/off an off-track warning when Follow GPS function is on.
- **Off-track warning distance** - set up distance from the nearest trackpoint for an off-track warning to be shown.
- **Off-track voice notification** - turn on/off off-track distance voice notification.
- **Waypoint notification** - turn on/off notification when the GPS position is near a waypoint.
- **Auto hide notification** - turn on/off auto-hide way point notification after a short period.
- **Waypoint notification distance** set up distance from the nearest waypoint for notification to be shown.
- **Waypoint voice notification** - turn on/off off-waypoint description voice notification.
