How to get to GPS: Open Left Main Menu → Settings → GPS. GPS settings are the main settings for general GPS settings and location notification settings. * Rotate map according to GPS - turn on/off map rotation according to data from GPS instead of device orientation sensor. ** Move to lower part of the screen - turn on/off moving current location to lower part of the screen when following GPS. ** Show off track warning - turn on/off off track warning when Follow GPS function is on. ** Off track warning distance - set up distance from nearest trackpoint for off track warning to be shown. ** Off track voice notification - turn on/off off track distance voice notification. ** Waypoint notification - turn on/off notification when GPS position is near to a waypoint. ** Auto hide notification - turn on/off auto hide way point notification after a short period. ** Waypoint notification distance set up distance from nearest waypoint for notification to be shown. **
