

Offline map style manager (PRO only)

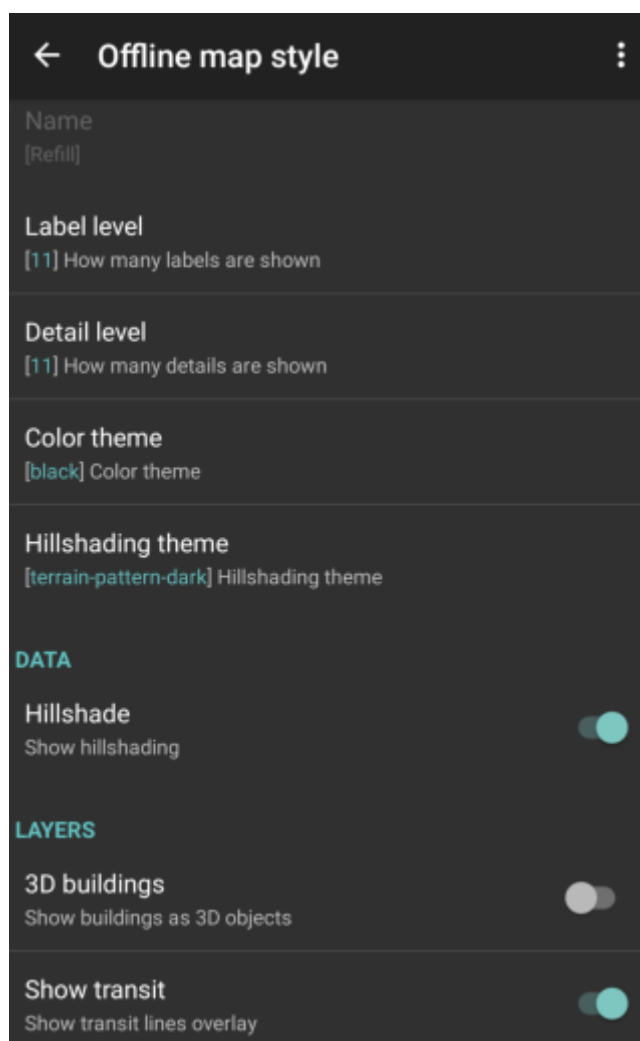

Offline map style manager is a setting where users can add, update and delete offline map styles. Map style is a layout to which the map data are loaded and in combination, they create the final view the user is seeing.

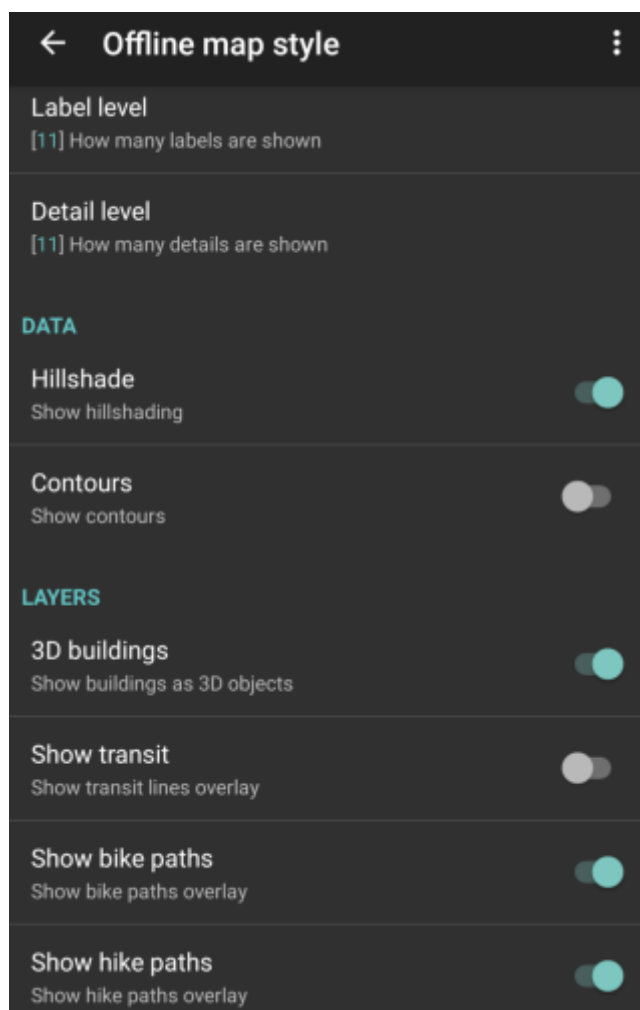

You can find out more about our offline map style [here](#).

Each map style is customizable by clicking on the palette on its right side. The options are:

- **Add new offline map style** - to find out more about how to add a new offline map style please click [here](#).
- **Edit** - editing options for current map style.
- **Use this offline map style** - by clicking on this option, your offline map style will be changed to the one you are currently at.
- **Delete** - deleting of map styles.
