

## History

---

History displays the tracks that were opened chronologically from latest until the oldest. The files which icons are in green are the ones that are open on the map.

Files: Each file consist of information:

- Name of the file.
- Size of the file.
- Date of file creation.

Next to each file there is option to star it and add or remove it from favorites. After short tap on a file, the file is selected. After long tap on files the following options display:

- Show full path
- Rename - this change will change the name of the file in the whole device.
- Share - options how to send or share this file appears.
- Copy - copying file.
- Cut - cutting out the file.
- Paste - paste into the current location previously copied or cut file.
- Delete - deleting the file in device.
- Compress - compressing files into the kmz or gpz formats.

In a case more files are selected previous actions are executed for all of the selected files (except show full path and rename).
