2025/11/04 11:40 1/1 How to add waypoint

How to add Waypoint

To create and add Waypoint on the map you need to:

- 1. Tap longer on the screen in the point you want to create the waypoint.
- 2. Click on the new waypoint that appears and the information bar will unroll.
- 3. After clicking on "i" icon, users can get to the waypoint details where color, symbol, name, etc. can be changed.
