

## Track recording

---

Here you can find step by step instructions om how to record a track with GPX Viewer PRO:

1. Open main **left menu**.
2. Tap **Track Recording** button.
3. When **red recording icon** appears on the right side of the screen tap it.
4. **Select a profile** that fits your transportation means.
5. After starting the recording you have 3 different symbols to use.
  1. **Stop the recording**.
  2. Pause the recording.
  3. Add waypoint from your current location.
6. After stopping recording, you can **adjust track details** such as name. description, links, location and file type.

Below is video showing following instructions above:
