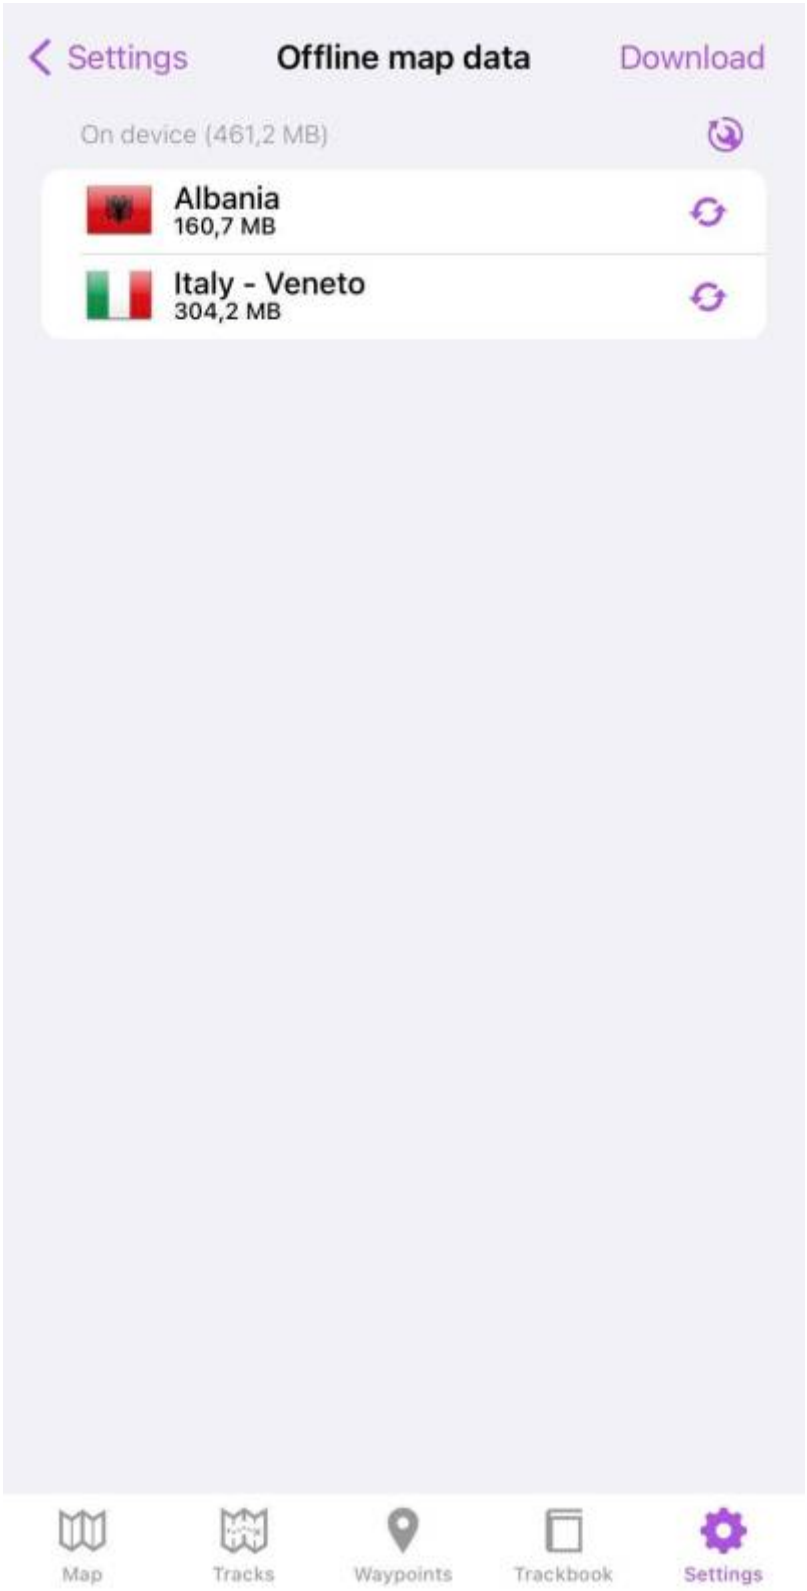
Offline map data

To get to manage offline map data you need to open Settings and scroll to the part of Offline Map. After tapping on this menu line the following screen will be displayed. The screen contains the **maps that are already downloaded**, **maps data interity check** button and **download** button. Next to each downloaded map there might be displayed update button in case there is on server newer version of map data.



After tapping on the download button, the menu of map data is being displayed divided by continents and later by countries and territories and in case of countries with greater amount of map data also by regions. After tapping on the download button, the download of the map data starts and it's progress bar is displayed on the main offline map data screen.
