2025/11/04 19:38 1/1 Track/route information

Advanced functionality

Analysis about tracks/routes can be displayed by opening **Left main menu** → **Track/route info**. Here users can find tracks or routes categorised by their source:

- **Opened** from open gpx files stored in your device.
- Trackbook created in trackbook.
- **Recorded** recorded tracks on the device.

After tapping on any of them users can see the statistics and graphs analysing the track. Information displayed in statistics:

- **Speed** of the track/route.
- **Elevation** displayed on the map under the name of the track/route.
