## Waypoints

The waypoint menu screen is consisting of search of the waypoints imported into the application, import button and the waypoints themselves.

| Select |                                   | Import               |
|--------|-----------------------------------|----------------------|
| Wa     | ypoints                           |                      |
| Q Se   | arch                              |                      |
| ×      | Švejk Restaurant U Pětatřicátníků | >                    |
