Other Settings

Tracks

Track settings allow mainly to change the visualization of tracks in general. The options to alter tracks are:

1. Show Icons - to show beginning and end icons for the track lines.
2. Use color from file - some of the files include the colors for each of the tracks, with this option turned on, you allow the GPX Viewer to also read the color defined there.
3. Delete all - deletes all tracks.

Waypoints

Settings for waypoints have only one option and that is:

- Delete all - deletes all waypoints.

Charts

Settings for Charts is within setting what data should be displayed on the X axis the options are the following:

- Distance
- Duration
- Time

Units

Allow setting units for the following metrics:

- Distance - Meters, Kilometers, Miles, Nautical Miles, Feet, Yards.
- Elevation - Meters, Kilometers, Feet.
- Speed - Meters per second, Kilometers per hour, Miles per hour, Konts.

Miscellaneous

These are the settings that allow us to improve the quality of the application:

- Send anonymous usage stats.
- Send anonymous crash logs.

The rest of the application shows more information about the application and also options to:

- Export application settings.
- Import application settings.
- Delete the trackbook account.
